Date Founded:

1977

Company Description:

The Alex Color Company manufactures low-cost, high-quality aqueous dispersions for use in water-based inks and coatings. Since 1977, Alex Color has worked hard not to become the biggest dispersions manufacturer, only the best. Our mission is to help our customers by offering the best value in aqueous dispersions. Alex Color Company offers quality products, prompt personalized service and outstanding value..

Major Products:

- AL-Flex dispersions:
Acrylic resin-based dispersions for use in water flexo inks.
- C Series dispersions:
Low-cost resin-based dispersions for corrugated, newsprint, multi-wall bag or gift wrap applications, where economical dispersions are required.

- Specialty dispersions:

Any of our standard dispersions can be modified, or new ones developed, to meet the unique needs of our customers.

- Al-Acrylic Dispersions:

Acrylic resin-based dispersions for use in water based coatings.

- W Series dispersions:

These dispersions are resin-free, low-VOC dispersions designed for compliant inks and coatings.

- WZ Dispersions:

Our newest development, these surfactant based dispersions are APE Free with zero VOCs.

Products' Scope

Alex Color Company supplies its dispersions to the water-based ink and coatings industries, artist supply manufacturers, as well as producers of landscape mulches and concrete additives. Our customers range from small to very large, and our wide variety of products enable us to supply virtually any requirement for aqueous dispersions.

Technologies

Among Alex Color Company's unique qualities is the company's ability to manufacture custom aqueous dispersions in batch sizes from 500 grams to 2,500 pounds, utilizing the customer's choice of pigment, resin, surfactant, etc.

Technical Capabilities

Technical service is promptly available by calling our toll-free number at (888) ALEX COLOR. Since Alex Color serves a variety of industries, our technical expertise is extensive and broad-based.
