Company Description:

For more than 20 years, Artemis International has been a leader in the science of berries and the top supplier of dark berry nutraceuticals, including standardized extracts, fruit fibers, powders and concentrates. Artemis specializes in Berryceuticals™, darkly pigmented berry-based nutraceutical ingredients, including Elderberry, Aronia, Cranberry, Blueberry, Black Currant, Tart Cherry, and Bilberry, as well as unique products like Purple Corn and Purple Tea. All are high in anthocyanins and other flavonoid compounds with antioxidant, anti-inflammatory, anti-carcinogenic and other health properties. Experts in dark berry science and product development, Artemis makes highly effective nutraceutical ingredients for use in the food, beverage and dietary supplement industries. Founded in 1995, Artemis is at the forefront of research on the health benefits of berries, having developed strong relationships with some of the top scientists in the field of plant-based nutraceutical ingredient research. Artemis has participated in compelling studies that demonstrate the potential for compounds in dark berries to combat many of today's chronic health concerns.

Artemis also develops proprietary formulas under its Phyto-Solutions™ line for customers to meet targeted healthcare needs, using research-validated bioactive compounds.
