## Company Description

Keeneyes Industrial Corp. Limited was founded by Y.C. Liao in 1974 in Taiwan. We are a reputable independent chemical distribution company with customers around the world. The company is headquartered in Taipei with multiple offices throughout China and a network of associates around the world.

We are known for providing professional services to our customers based on our business principles of service excellence and the best quality products with reasonable and stable prices.

Over the years, we worked with customers to identify and source products for specific applications – a service Keeneyes is always pleased to discuss with customers and potential customers.

Keeneyes is poised for further growth to service customers throughout the global market. With our continuing investment in high caliber professionals and technology, we look forward to building closer relationships between suppliers and customers.

Keeneyes combines financial stability, excellent customer service, and a professional team to win loyal suppliers and customers in more than 40 countries. Facing the challenges of a competitive global market, transparent information, and product nationalization, we believe in aligning our company mission to pursue “Innovation, Excellence, Integrity, and Trust” to bring the best service for our customers.

## Market Served & Major Products

- Polymer (resin, adhesive, plastic)
- Plastic additives (high performance antioxidant, UV absorber, anti-static agent and modifiers)
- Many kinds of raw materials for synthetic resin
- Coating additives for Paint and Ink
- Curing agent for epoxy resin and PU resin
- Specialty fine chemicals
- Metal, special alloys and mining materials trading (mullite, kyanite, chrome sand, zircon sand...etc.)
- Foundry chemicals for steel, stainless and aluminum (forging and extrusion release agent, dry plunger lubricant, release agent for hot dies, ladle coating) other relative specialty chemicals
