NETZSCH was founded in 1873

Company Description

NETZSCH Premier Technologies, LLC is the North American subsidiary of the globally operated group of NETZSCH companies. NETZSCH is a leading manufacturer of wet grinding equipment, including media milling, dispersing and deaerating, as well as dry processing machinery including jet mills, impact mills and air classifiers.

Markets Served

NETZSCH provides services to a vast number of markets, including:

- Agriculture
- Adhesives
- Battery
- Biotech
- Coatings
- Confectionary
- Cosmetics
- Drug Discovery
- Environmental
- Food and Beverage
- Inks and Paints
- Minerals
- Nanotechnology
- Pharmaceutical
- Renewable Energy
- Technical Ceramics

Technologies

NETZSCH Premier Technologies, LLC specializes in advanced technologies for every application. The technical center encompasses several test labs with a variety of wet mills, dry mills, homogenizers, and particle analysis equipment. Their most notable technologies are in horizontal media mills, high speed dispersion and mixing, bench-size, pilot plant and production-size mills, and particle analysis.

Technical Services

NETZSCH offers an extensive machine program for process engineering. The company's strength lies in their ability to build and maintain strong relationships with customers before, during and after a purchase.

Major Products

Some of our most renowned wet grinding mills include:

- Alpha
- Omega
- DeltaVita
- Circulation Mill Type LMZ
- Horizontal Disk Mill Type LME

Some of the most renowned dry grinding machines are:

- CGS Fluidized Bed Jet Mill
- S-Jet Steam Jet Mill
- ConJet High-Density Bed Jet Mill
- Condux Universal Mill
- Cellulose Cutting Machine

Global Capabilities

United States, Germany, Brazil, China, Russia
