### Company Description

Phoenix Color® brings over 38 years of print experience to the cut & stack label industry. With expert customer service and state-of-the-art equipment, we offer all sizes and variations of labels to meet your project needs. Phoenix Color® offers an array of services that help guide your cut & stack label project smoothly through the manufacturing process. From an easy-to-use on-line estimating service to our superior digital

prepress services, we make it easy to get your project in the door and ready for printing. We also offer on-site paper converting and an extensive in-house paper stocking program which result in a quick turn-around time on your cut & stack projects. From flexible finishing solutions to sensational special effects, Phoenix Color can produce your label and expertly communicate the value associated with your Brand to your targeted customer base.
