Date Founded:

1956

Company Description:

Sartomer is a leading global supplier of specialty chemicals for ultraviolet and electron beam (UV/EB), peroxide and two-part epoxy/amine systems. For more than 60 years, Sartomer has worked closely with customers to co-develop solutions so they can, in turn, develop the most innovative products.

Today, backed by the financial resources and technical services of Arkema, Sartomer provides a strong global approach to R&D, manufacturing and customer support.

Markets Served:

Sartomer is a leading global supplier of acrylate/methacrylate monomers, oligomers, and other specialty chemicals used in the following markets:

- Coatings
- Graphic Arts
- Adhesives and Sealants
- Elastomers
- Advanced Materials
- Electronics
- Chemical Intermediates
- 3D Printing

Our products are an integral part of end uses as diverse as hard-wood flooring, printing plates, display screens, package coatings, furniture and eyeglasses.

Technologies:

Sartomer has the broadest range of monomers and oligomers in the world, as well as an experienced technical staff. As part of Arkema, Sartomer has even more resources behind its already global reach in Asia, Europe and the US.

Technical Services:

With two domestic manufacturing sites and locally-based technical and application centers, Sartomer can develop new products to meet your special needs.

Major Products:

- Acrylate/methacrylate functional monomers
- Epoxy, urethane and specialty oligomers
- Water-indicating paste

Global Manufacturing Plants:

The Americas

West Chester, PA
Chatham, VA

Asia

Nansha, China

Europe

Villers-Saint-Paul, France
