Company Description

Trust Chem is an independent, privately owned company and the biggest producer and exporter of organic pigment from China to the world market. Trust Chem is the 4th largest manufacturer and supplier of organic pigment in the world, with headquarters located in Hangzhou China. Subsidiaries in Europe, North America, Australia, India and South Africa make Trust Chem a true global supplier to the color industry.

Markets Served

As a manufacturer of organic pigments, Trust Chem serves the Coatings, Plastic and Ink markets around the world. For Coatings, we offer many color indexes ranging from low to high performance to serve the OEM and Refinish Automotive Industries, Industrial and Architectural markets, as well as Powder Coatings and Traffic Paint Industries. For Plastics, Trust Chem offers pigments to the Masterbatch, Processor and Film Industries.

Technologies

In Trust Chem's four manufacturing plants in Asia, we produce a wide range of pigment technologies including Phthalocyanine Pigments, Classical Azo, HPP Azo, Benzimidazolone, Disazo Condensation, Anthraquinone, Isoindolinone, Isoindoline and Quinacridone pigments.

Technical Services

Trust Chem has the largest independent laboratories in China, where over forty full-time employees are responsible for quality control, product development and research. Trust Chem is committed to fully register their manufactured pigments for

REACH. We specialize in problem solving for our wide customer base. Our labs in Hangzhou China offer testing capabilities for all industries. They include many different types of lab equipment, including an automated and air-controlled spray booth for automotive applications, and a Plastic Twin Screw Extruder, Film Blowing Line, and Plastic Mold Injection Machine for plastics applications. Trust Chem is able to control the quality for all of our manufactured organic pigments in most customer systems.

Major products

Trust Chem offers a large variety of color indexes. Major products are in the high performance yellow, orange and red area. We offer a full range of HP Azo, Isoindolinone and Benzimidazolone pigments tailored for the Coatings and Plastic markets. Our latest products are Disazo Condensation pigments including PY93, PY95 and PY128. More recently, we started offering PY110 for the coatings industry.
